

# What is a Broadley-James SingleSense® single-use sensor?

SingleSense® single-use sensors from Broadley-James are designed for preinstallation and one-time use in upstream and downstream bioprocess applications, including media mixing, buffer prep, and large-scale cell culture. These single-use sensors can be preinstalled into any bioprocessing container or downstream tubing assembly and streamline pH, DO, and pCO<sub>2</sub> measurements. Broadley-James single-use sensors are rugged, ready to use without preconditioning, and have a 30-month shelf life.
