

European Symposium on Biochemical Engineering Sciences (ESBES)

Overview

The *European Society for Biochemical Engineering Sciences* (ESBES) and the Institution of Chemical Engineers (IChemE) are delighted to present ESBES 2016. This major event will provide a platform for bioengineers and others to discuss the latest in research and industrial application of all aspects of biochemical engineering.

The ESBES symposium was first staged in 1996, in Dublin, Ireland, and is widely regarded as one of Europe's leading events in the biochemical engineering sector.

Taking place every two years, the event stimulates scientific advances in the field and provides a platform for communication, education and interdisciplinary exchange. It also provides an important conduit between industry and academia, fostering the cooperation between international bioengineers.

The main conference will take place in the RDS Concert Hall, Ballsbridge. It is steeped in heritage, with beautiful Georgian architecture, natural parks and the Grand Canal just a short stroll away.

Broadley-James Ltd is pleased to support ESBES 2016 in Dublin, 11 - 14th September 2016.
